SUMMARY OF QUALIFICATIONS

- Proficient in full-stack development with hands-on experience using React Native, React.js, FastAPI, Django to build scalable web and mobile applications.
- Strong ability to manage and deliver software projects across diverse teams and international clients, with a focus on usability, performance, and customer satisfaction.
- Solid foundation in software engineering principles, with demonstrated success in developing and deploying end-to-end solutions for logistics, cooperatives, and e-commerce systems.

EDUCATION

National Open University Nigeria, Faculty of Computing   Osogbo, Nigeria
Bachelor of Science, Computer Science   September 2026
Emphasis, Software Engineering   Major GPA: 3.187/4.00

RELEVANT COURSEWORK

Software Engineering, Mobile Software Development, Simulation and Modeling, Database Management, Compilers, Database Management System, Data Structure & Algorithm.

TECHNICAL SKILLS

Programming Languages: SQL, C++, Java, JavaScript, Python, Nextjs, Reactjs
Operating Systems: Windows, Linux, Unix
Database: SQL Server, MS Access, Supabase,
Software: SQL, DB2, MS FrontPage/Teams/Excel/Word, Zoom, Xano, Bubble, NordCraft
Frameworks: Reactjs, Nextjs, Djangorestframework, Springboot, React Native

RELEVANT EXPERIENCE

Tempho Inc.   Toronto, Canada
Software Engineer   August 2023 - April 2025

- Develop and maintain cross-platform mobile applications using **React Native**, enhancing performance and user experience for a growing customer base.
- Built responsive and accessible web interfaces with **React**, **HTML**, **CSS**, and **JavaScript**, contributing to multiple product launches and feature updates.
- Collaborated with designers and backend engineers to integrate APIs and ensure seamless front-end functionality across mobile and web platforms.

Patton Warehousing & Logistics.   Milton, USA
Software Engineer   September 2024 - March 2025

- Developed and maintained responsive web interfaces using HTML, CSS, and JavaScript to streamline internal logistics and warehousing operations.
- Built and optimized custom workflows and dashboards in Bubble.io to automate order tracking, inventory management, and client communications.
- Integrated Stripe for secure online payments and invoicing, improving the speed and reliability of the company's billing processes.

Sircularity LLC.   Texas, USA
Junior Software Engineer   July 2024 - March 2025

- Collaborated on building and maintaining responsive web interfaces using HTML, CSS, and JavaScript to deliver intuitive user experiences for client applications.
- Developed and integrated backend APIs using FastAPI and Django, enhancing application performance and supporting complex business logic.
- Worked closely with cross-functional teams to prototype and deploy visual software solutions, contributing to end-to-end development from UI design to API implementation.

Samdenkens Nigeria Limited.   Lagos, Nigeria
Software Engineer   June 2024 - November 2024

- Developed and maintained responsive user interfaces using HTML, CSS, JavaScript, and ReactJS, ensuring optimal performance across modern browsers and devices.
- Collaborated with cross-functional teams to translate design mockups into interactive web features, enhancing user experience and interface usability.
- Implemented reusable React components and optimized front-end code for performance and scalability in line with business requirements.

PROJECT EXPERIENCE

Cooperative management system, *Software Development*   May 2025 - June 2025

- Developed a cooperative management system for cooperative society in Nigeria to track members, savings, loans.
- Used React Native for the mobile app interface for both cooperative admins and members.
- Incorporated Reactjs, HTML, and CSS to produce an interactive web app solely for cooperative admins that have access to a computer.

ADDITIONAL EXPERIENCE

BlackScholar Inc   Calgary, Canada
Nocode(Bubble.io) developer   December 2022 - July 2023

- Develop a scholarships listing web app during my time at Blackscholar using Bubble.io
- Make sure data are safe using privacy rules.
